

**REMARKS**

**I. Introduction**

In response to the pending Office Action, Applicants have amended claims 26 and 27 so as to address the rejection thereof under 35 U.S.C. § 112, first paragraph.

Applicants note with appreciation the indication of allowance of claims 1-25.

For the reasons set forth below, it is respectfully submitted that all pending claims are now in condition for allowance.

**II. The Rejection Of Claims 26 And 27 Under 35 U.S.C. § 112**

Claims 26 and 26 were rejected under 35 U.S.C. § 112, first paragraph, for failing to provide a written description of the elements set forth in the claims as filed in the response dated October 8, 2003.

In particular, the Examiner objected to the language regarding that anode layer does not have any other anode layers disposed in between (see, claim 26) and that the cathode layer does not have any other cathode layers disposed in between (see, claim 27). It is noted that the foregoing language was an inadvertent error. Both claims 26 and 27 have been amended to correctly recite the present invention. Specifically, claim 26 has been amended to recite that the anode layer does not have any other cathode layers in between, and claim 27 has been amended to recite that the cathode layer does not have any other anode layers disposed in between. Based on the comments

set forth in the Office Action it appears that the Examiner appreciated this error, and Applicants wish to thank the Examiner for identifying the error.

It is respectfully submitted that the foregoing amendment to claims 26 and 27 overcomes the pending rejection of the same.

**III. Request For Notice Of Allowance**

Having fully responded to all matters raised in the Office Action, Applicants submit that all claims are in condition for allowance, an indication for which is respectfully solicited.

If there are any outstanding issues that might be resolved by an interview or an Examiner's amendment, the Examiner is requested to call Applicants' attorney at the telephone number shown below.

Respectfully submitted,
